As Dead as the Dodo

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist.

Take "Dodson's Liver Tone" Instead!

Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults.

Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

Criticism and Citizenship

It is the plain, public duty of every citizen to criticize proposed government measures believed to be harmful.

Swift & Company is in a better position perhaps, than others, to understand the meat packing business in all its relations to public and private interests, even though the others may have been giving the subject a great deal of sincere attention.

Swift & Company is convinced that interference with its legitimate business function by governmental agencies, however well intentioned, would be an injury to every man, woman and child who wants meat to eat, as well as to the men who raise the meat and to those who dress and distribute it.

Maximum service that cannot monopolize because of keen competition and lack of control over sources of supply is furnished at a minimum of profit—a fraction of a cent per pound from all sources.

Therefore Swift & Company is taking every legitimate step of citizenship to prevent such interference.

These advertisements are intended to help you, and to help Congress decide what is best to be done. Mistakes are costly and apt to be harmful in these trying times.

Let us send you a Swift "Dollar."

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.

"The 52 Biggest Problems of the Average Southern Farmer"

EVERY member of The Progressive Farmer staff has had actual farm experience—most of us are running Southern farms now—and from our own experience, and from the multitude of farmers' letters that come to us every year, we believe we have figured out a pretty nearly perfect list of these "fifty-two biggest problems" of the average Southern farmer, and we are going to treat them in next year's Progressive Farmer.

We are going to treat them, too, in order of timeliness, just as far as possible. For the aim of The Progressive Farmer, always, is to tell the subscriber just what he wants to know, just when he wants to know it, and in as few words as possible.

Here's the list of big problems we shall treat during the full months, and the date on which each discussion will appear:

- November 1—Financing the Farmer: (Personal and short-term Credit; Long-term Credit for Land Purchase; Avoiding "Time prices" Utilizing National Farm Loan Associations, etc.)
- November 8—Systems of Farming—Affecting Soil Fertility, Money Profits, Prosperity and Permanence of Rural Life.
- November 15—Arranging and Erecting Fences; Relative Values of Different Systems, Material, etc.
- November 22—How to Reduce Land-washing to a Minimum. (Terracing, Ditching, Filling Land with Humus, Proper Use of Steep Hill-sides, etc.)
- November 29—What Changes are Needed to Insure Better Health for Men, Women and Children on the Farm?
- December 6—Winter Care and Feeding of Horses, Mules, Cattle and Hogs.
- December 13—Getting Rocks and Stumps off the Land.
- December 20—How Farm Neighbors May Work Together for Greater Profits and Happiness.
- December 27—Business Methods on the Farm: (Inventory; Records; Accounts; Banking; Cost-keeping; Advertising; System in Correspondence and Making Sales, etc.)

The above subjects are of vital importance to you and alone are worth the price we ask, and remember The Progressive Farmer carries many other big features not mentioned above.
